## ❖ Relevant (human) resources @SU

**Christina Leigh Docteur**, Director, Proposal Support Services

As Director of Proposal Support Services, Christina is responsible for supporting Syracuse University's proposal, research and faculty development efforts. Christina works to facilitate team-based collaborations around strategic funding opportunities, to develop institutional research infrastructure, including relevant staffing, training and systems, and manages the University's internal funding competitions. Prior to her appointment, Christina served as the Grant Development Administrator for the Maxwell School of Citizenship and Public Affairs.

**Chetna Chianese**, Associate Director of Proposal Support Services

As the Associate Director of Proposal Support Services, Chetna assists faculty across Syracuse University with the development of new research priorities and proposals. She provides research development leadership for the university-identified research clusters, facilitates multi-million-dollar and inter-school/college proposal submissions, and manages the university's limited submission process. Prior to her appointment, Chetna served as the Associate Director of Research at SyracuseCoE, aiding faculty on research proposals and projects related to energy and environment.

**Sarah Workman**, Assistant Director for Proposal Development in the Humanities

As Assistant Director for Proposal Development in the Humanities, Sarah supports faculty in efforts to raise their research achievement and recognition by identifying funding sources for their work, assisting with writing grants and proposals, and helping coordinate nominations for honorary awards. Positioned as part of both the Office of Research and the College of Arts & Sciences, Sarah's role supports Humanities research across the University.

**Jeffrey Falchi**, Research Information Management Specialist

As Research Information Management Specialist, Jeff supports the systems used to aid in the growth of research within the University. He is the primary administrator for the Syracuse University Application Portal (InfoReady), which is the application management tool for internal funding opportunities and limited submissions to external funders. He also manages, in conjunction with Syracuse University Libraries, Experts@Syracuse (Pure) a research information management system. In addition, Jeff maintains University research data, such as the HERD Survey and the Office of Research Annual Report.

**Experts@Syracuse** is a powerful new tool that automatically creates Research Profiles for those who have available **Scopus** publication data. During our initial implementation of this tool, researchers or scholars from the schools, colleges, and departments that most frequently publish in Scopus journals (i.e. biological, medical, physical, social, and engineering sciences) will be granted log-in access to **Experts@Syracuse** allowing them to enter additional content to their profile. In addition to the ability to customize their profile, they will have access to a search engine that will identify funding opportunities specifically geared toward their area of expertise. Use the **'Log into Pure'** at the bottom of the **Experts@Syracuse** homepage.

**PIVOT** (formerly COS – Community of Science, [Advanced Search User Guide](#))

- **General Tips:** Start broad and then narrow your terms. Avoid jargon. Use a variety of filters and terms if you don't see what you expect.
- To access from a non-SU computer or to sign up for weekly alerts, first **sign-up** and create your PIVOT account while logged on to an SU computer.
  - Use your **@syr.edu** email account; non-SU emails are inactivated at the end of the academic year.
- Common filters in "Advanced Search"
  - **Funding Type:** Artistic Pursuit, Dissertation or Thesis; Postdoctoral Awards; **Program or Curriculum Development or Provision**; Research
  - **Requirements:** Graduate Student; New faculty/new investigator; PhD/MD/other professional
- Like a search you've done? After creating an account and while 'logged on to your account' you can "Save Search" and then receive weekly updates.

#### What is Experts @ Syracuse?

**Experts@Syracuse** is a powerful tool that enables new insights into the scholarly expertise and collaborative opportunities that exist within Syracuse University and at other universities. It is designed to help faculty members, departments, and potential collaborators identify who is working in what research or scholarly areas at Syracuse University. Experts@Syracuse is based on tailored research profiles that are automatically created, and require minimal effort to maintain. Profiles include publications tracked by Scopus (an enormous interdisciplinary database), grants from the OSP database and University departmental affiliations. Experts@Syracuse is a collaborative initiative co-sponsored by the Office of Research and the Syracuse University Libraries.

#### Items Automatically Added to Experts

**Grants** are added by the Office of Sponsored Programs.

**Press & Media mentions** are automatically added from a system called Newsflo that is part of Pure. It searches LexisNexis resources and matches them. See the box to the right for instructions on disclaiming/removing press & media mentions.

#### Publications indexed

**in Scopus** are also automatically added. If you have publications that are not indexed in Scopus but would like to include

#### Purpose

Experts@Syracuse is designed to promote research and scholarly collaboration by making it clear to internal and external parties what Syracuse University's areas of expertise are and who the individual experts are. Experts@Syracuse makes it easy to find and connect with experts in a given field within Syracuse University and at other universities, providing value for faculty, staff and students. Another key feature for individuals that have a Research Profile is the "Funding Discovery" module, where funding opportunities that most closely match an expert's research area are automatically delivered. Experts@Syracuse also creates CVs in multiple useful formats at the click of a button that can be exported in a number of ways.

#### Which Individual Researchers or Scholars are Profiled in this Tool and What are their College/Department Affiliations?

Experts@Syracuse research profiles are based on publication data fed directly from Scopus, a proprietary interdisciplinary database licensed by the Libraries, primarily focused on journal publications in the biological, medical, physical

#### Funding Discovery Profiles

You may create additional funding discovery profiles. If your research has many components or if you are breaking into a new field, you can create a new funding profile using different terms from your finger print. Within funding discovery, select the down arrow next to default profile to create the new one.

#### Where Can I Find a List of Profiled Schools, Colleges and Departments?
